Sir:

Victor Koren being duly sworn, says:

1. I am the inventor of the subject matter described and claimed in the above-referenced patent application.

# Best Available Copy

2. Prior to August 9, 1999, the effective date of the Grisamore et al. reference (U.S. Patent No. 6,445,791), and on or after January 1, 1996, I had completed the invention as described and claimed in the subject application in Israel, a WTO member nation since April 21, 1995.

3 As evidence that my work antedates Grisamore, I refer to a photocopy of the disclosure document, attached hereto as Exhibit 1 and, further, to photocopies of correspondence between myself and my attorneys, attached hereto as Exhibits 2 through 8. Dates, along with privileged information, appearing in these documents have been redacted. Exhibits 1 through 8 evidence the efforts of my attorneys, and their interaction with the undersigned inventor, from a time prior to the effective date of the Grisamore reference and ending with the constructive date of reduction to practice — i.e., the filing of the present application.

The facts contained within these Exhibits establish my conception of the claimed invention prior to the effective date of the Grisamore reference coupled with due diligence through to the filing of the present application.

4. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

  
Victor Koren
